Number Of Pages

Your website design project includes the number of pages outlined in your quotation package. Any additional pages will incur a charge starting at \$100 per page, depending on complexity.

Design And Layout

Design and layout will be selected based on your input and will use a standard free or purchased WordPress template. Customizations will be made to fit your branding and visual preferences. Color changes are easily implemented. Full-scale design changes that require custom CSS will involve collaboration between a graphic designer and web developer and may add approximately \$2,500 to your project based on complexity.

Digi Edge Tech is committed to customer satisfaction. You are entitled to two (2) rounds of revisions:

Initial design and layout review with the opportunity to request changes.

Final content and layout review prior to publication.

Unless noted otherwise, image assets must be provided by you, the client. Digi Edge Tech can acquire stock images on your behalf at a cost of \$10-\$60 per image. Photo sourcing, cropping, and editing services are available at \$75/hour. Photography services for your products or business location are available for an additional fee.

Clients are responsible for ensuring all provided images are properly licensed. Digi Edge Tech is not liable for copyright issues related to client-supplied materials.

Website Development Terms And Conditions (Hourly)

General

Website development projects are inherently iterative and complex. Whether Digi Edge Tech is developing new functionality or troubleshooting an existing installation, these tasks often involve unpredictable challenges. While we make every effort to complete work within the estimated hours, all development projects are billed hourly at the rate specified in your quotation.

Billing And Estimates

Digi Edge Tech will provide an estimate of hours required based on the initial project scope. This estimate is not a guarantee of the total time or final cost. If the project reaches the estimated budget, we will pause work and contact you for further instructions—either to cease work or to approve additional hours. We provide detailed billing summaries outlining the time spent and progress made. Our goal is to maintain transparency throughout the development process, keeping you informed of time usage and deliverables.

Image

Unless otherwise specified in your quotation, all images used on your website must be supplied by you, the client. Digi Edge Tech can assist in sourcing high-quality stock images upon request. Stock photo pricing typically ranges from \$10 to \$60 per image, depending on the source.

If you require assistance with selecting, cropping, or editing images to ensure they are web-ready, these services are available at a rate of ₦5,000 / \$5 per hour. Additionally, Digi Edge Tech can coordinate professional photography services to capture images of your products, location, or team for an added fee.

By providing images, you confirm that you hold the appropriate licenses and legal rights to use those images on your website. Digi Edge Tech assumes no liability for copyright infringements related to client-supplied images or content.

Content

Unless otherwise specified in your quotation, all website content must be provided by you, the client. Digi Edge Tech offers professional copywriting services if you require assistance creating engaging and effective content. Our copywriting services start at ₦25000 / \$25 per web page (approximately 500 words). Contact us for more information or to request a quote tailored to your project needs.

Logo

Unless otherwise specified in your quotation, you, the client, are responsible for providing a high-quality digital logo file suitable for use on your website.

Access And Hosting

You are responsible for providing Digi Edge Tech with all necessary credentials, including access to your existing WordPress installation (if applicable), your web host's cPanel, and FTP details, to allow for the installation and setup of your website. If you do not already have web hosting in place, Digi Edge Tech offers competitive hosting packages at an additional cost.

Search Engine Optimization

Digi Edge Tech ensures that your website is built to be search engine-friendly by including a sitemap and integrating it with Google Webmaster Tools. However, unless otherwise specified in your quotation, comprehensive SEO services such as keyword analysis and optimization will incur an additional fee.

Ongoing Support

Unless ongoing maintenance is specified in your quotation, it is not included in the project. Regular updates to WordPress and its plugins are essential for maintaining security and functionality. A weekly website backup is also recommended. Digi Edge Tech offers ongoing support for a low monthly fee—please inquire for more details. If additional support is needed, you can purchase a support plan or contract Digi Edge Tech at an hourly rate.

Training

WordPress training is not included unless explicitly specified in your quotation. Digi Edge Tech offers one-on-one WordPress training at ₦10,000 / \$15 per hour or can provide half-day (\$180) or full-day (\$350) remote 1-1 training sessions. Additionally, Digi Edge Tech provides free access to training videos via our website.

Meetings and Consultations

Communication during the design and development process via email and phone to review content and provide approvals is included. However, if Digi Edge Tech is required to attend meetings, conference calls, or web meetings for consultations, strategy reviews, presentations, or to develop new content outside of your quoted project, this will be charged at ₦15,000 / \$20

Liability & Warranties

Liability

All designs are subject to your approval before launch. Final approval is your responsibility.

Digi Edge Tech recommends a legal review before publication. Digi Edge Tech assumes no liability for any content approved by you for publication on the internet. In any event, liability will be limited to the total value of your design contract.

Warranties

Original Work Done by Digi Edge Tech

Digi Edge Tech warrants that your website design and functionality will work properly on the current desktop versions of Internet Explorer, Safari, Firefox, and Google Chrome at the time of publication. Compatibility with older or future browser versions or mobile browsers is not guaranteed. While Digi Edge Tech strives to ensure your site is responsive and compatible with various devices, we cannot guarantee identical display across all platforms. Specific issues can be addressed for an additional fee.

Digi Edge Tech recommends keeping WordPress and its plugins up to date for security. However, we cannot guarantee that plugins or custom coding will work with future WordPress updates. Should compatibility issues arise, you can:

- Choose another compatible plugin
- Remove the functionality
- Hire a developer to custom build the required functionality

Due to WordPress's dynamic nature, which depends on factors like client-supplied content, hosting providers, browser updates, and security patches, any fixes or development required will be billed at hour rate unless covered by a support plan.

Development Work to Fix Existing Installations

Digi Edge Tech does not warrant work on existing installations for specific functionality or suitability. We will attempt to fix issues within the provided budget, but any additional work needed to meet your satisfaction will be billed hourly [see plan](#).

Payments

Payment terms are outlined in your quotation. Full administrative access will be granted after the final payment is received.

Accreditation & Promotion

Digi Edge Tech may use screenshots of your website for promotional materials and design portfolios unless you request otherwise in writing.

Intellectual Property

Upon full payment of the final invoice, Digi Edge Tech grants you the right to the deliverables provided and accepted as part of this agreement.

Cancellation

If you choose to cancel the contract before completion, you will be billed for work completed up to that point, including consultations, meetings, and any out-of-pocket expenses (including third-party labor, stock photos, and other costs). These will be billed hourly.

Relationship of the Parties

Independent Contractor

Digi Edge Tech operates as an independent contractor, and nothing in this agreement creates a joint venture, partnership, or employer-employee relationship. Neither party is authorized to bind the other except as explicitly stated in this agreement. The work done is not considered “work for hire” unless otherwise agreed in writing.

Design Agents

Digi Edge Tech may engage third-party contractors (“Design Agents”) to assist with project delivery. Digi Edge Tech remains responsible for their compliance with this agreement.

No Exclusivity

This agreement is non-exclusive. Both parties are free to engage in similar relationships or projects with other clients or providers.
